Revolutionize Your Genetec Security Center Workflows with Genedeck

Genedeck provides a variety of benefits for users looking to streamline their workflow and increase efficiency.

Here are some of the key benefits of using Genedeck:

1. Easy Installation & Use

Genedeck eliminates the need for hard-wired buttons, making installation easy and hassle-free. It is a user-friendly, flexible, and dynamic tool that allows you to change functions instantly. You can easily train roles such as front desk personnel on how to use.

2. Provides Feedback

Genedeck does more than just act as a physical button. It shows the status of doors and provides feedback on the action. With customizable buttons, it can trigger events, and you can control any output.

3. Trigger Automations

Genedeck can trigger automations and you don't have to have Genetec Security Center running to use it.

4. Reduce Software Licenses & Maintenance

Using Genedeck can reduce the number of licenses required to access Genetec Security Center. You can optimize the use of your licenses and reduce the cost and effort required for software maintenance. This means that you can enjoy the full benefits of Genetec Security Center while minimizing the number of licenses needed to access it.

5. Increase Efficiency

Genedeck is perfect for repeatable actions inside of Genetec Security Center and can be customized to your organization's needs.

6. Cost Effective

With potential cost savings for large installations, Genedeck is a better alternative to mounting physical buttons, avoiding the hassle of hard-wired buttons.
