

# MAKE THE PRIME SWITCH to SECURED

We understand that change can be overwhelming. But with Prime by your side, the transition doesn't have to feel like a daunting task. Prime will support you through the process.

***We're here to simplify the process for you. Check out these ways we make switching effortless:***

Prime looks at your existing contract to better understand your terms, dates, cancellations, terminations, scope of service, etc. We show you what you're paying for vs what you're receiving.

Prime provides a playbook of the transition process, and communicates what we're doing throughout the process. This includes external onboarding meetings with all your resources and timelines.

Prime handles all of the communication with your current service provider, including the transition of your accounts and services.

Our clients have complete visibility into the Project Management tools we use, like Smartsheet, for complete transparency.
